

Campaign to put More Salmon Rods on the River

Dear WSA Supporter,

Prompted by the comments of one lower river owner who felt last season there were plenty of salmon in his fishings but few anglers fishing, we have been working on an initiative to try increasing the numbers of rods fishing the river. As a result a number of Owners have generously donated free salmon fishing to the scheme offering anglers the opportunity to reacquaint themselves with salmon fishing on the river Wye

The opportunity offers various days, beats and conditions, is open to all anglers but specifically aimed at those who do not have regular fishing on the river. It is available on a first come first served basis, must be prebooked at least 2 days before the day and is not transferrable!

We intend fully advertising this campaign through our website, due to go live early in February but this email is to give you, our supporters advanced opportunity if you so wish to take up these very generous offers and help fill the river with salmon anglers once again. The usual beat controls will be placed on anglers using the scheme including issuing of authorisation tickets containing rules, beat maps and conditions applying.

If you find you would like to take up the offer of a days fishing and would like to discuss further please contact me at above address or by phone 07789133263 or by email at ssmit660@gmail.com

Your Sincerely

Stuart Smith
